PROFESSIONAL SUMMARY

Detail-oriented Computer Science student with a focus on Machine Learning and Full-Stack Development. Proven track record of building AI-driven solutions, including predictive models and automation agents. Quick learner with strong leadership skills, demonstrated as University Sports Captain and Hackathon winner.

EDUCATION

BML Munjal University	2023 – 2027
B.Tech Computer Science & Engineering	CGPA: 6.82
Class 12th (ICSE) – Science	Completed
Class 10th (ICSE)	Completed

SKILLS

- **Languages:** Python (Advanced), Java, JavaScript, C++, SQL
- **Frameworks & Libraries:** TensorFlow, PyTorch, scikit-learn, OpenCV, XGBoost, Pandas, NumPy
- **Databases & Tools:** Git, Linux, Jupyter Notebook, Google Colab, VS Code, MongoDB, Docker
- **Core Concepts:** Machine Learning, Deep Learning, NLP, Data Structures, Web Development

PROJECTS

REAL-TIME POLLING APP	<i>May 2025 – Aug 2025</i>
Tech: Node.js, Express.js, MongoDB, PostgreSQL, WebSockets, JWT	Demo

- Built a real-time polling platform using WebSockets to enable live vote updates.
- Developed secure REST APIs with authentication and optimized database queries for smooth performance.
- Implemented password hashing with Bcrypt and managed configuration using environment variables.

AI-TALENT-SCHEDULER-AGENT	<i>Dec 2024 – Feb 2025</i>
Tech: Python, NLP, Regular Expressions	Demo

- Engineered an AI Resume Parser that extracts skills and experience from PDF/Docx files automatically.
- Integrated an automated scheduling system to match candidates with interview slots based on metadata.
- Reduced manual screening time by structuring unstructured talent data into organized JSON formats.

CLOUD BASED BUG TRACKER	<i>Aug 2025 – Dec 2025</i>
Tech: Python, Flask, PostgreSQL, SQLAlchemy, Redis, Flask-SocketIO, JWT/Bcrypt, HTML/TailwindCSS, GitHub Actions, Render.	Demo

- Developed a secure, cloud-hosted SaaS application on Render (PaaS) using Python Flask to streamline issue tracking and real-time collaboration. Implemented Role-Based Access Control (RBAC) and an immutable Audit Logging system to ensure data integrity and user accountability.

INTERNSHIP / TRAINING

New Delhi Data Point Pvt. Ltd. (DATA DIGEST)	<i>June 2025 – July 2025</i>
<i>Portfolio Management – AI Application Trainee</i>	

- Built risk-assessment modules using ML algorithms to evaluate financial portfolios.
- Collaborated on developing AI strategies for asset optimization and predictive financial modeling.
- Gained hands-on experience in handling large-scale financial datasets for trend analysis.

ACHIEVEMENTS & RESPONSIBILITIES

- **Hackathon Winner (DTU CryptoForge):** Secured 3rd Position as part of Team **V-Sentinels** for developing a blockchain-based security solution.
- **University Sports Captain:** Appointed to lead the university contingent; won the Hero's Challenge Sports Fest through strategic team management.
